

Testimonials: Compensation Consulting

Clark Consulting

“To succeed, we need highly motivated employees who work together as a team, so Clark Consulting structured a program with both team and individual incentive drivers influencing performance. ...Our employees know what the bank’s mission, values and objectives are. More importantly, they know they play an important role in achieving those goals and will be rewarded for their efforts.”

“Clark Consulting took an annual incentive program that was too complicated to both understand and administer and, by listening to our needs, brought us to the next level. ...Moreover, Clark Consulting incorporated retention and retirement features into the program—giving us a unique plan that provides a valuable benefit to our officers.”
