

It's probably a fake check scam if...

- 1.** Someone you don't know wants to give you a check or money order and have you wire cash back to them, or someone else.
 - 2.** A "lawyer" or "government official" contacts you about winning a foreign lottery or helping them import money from their country.
 - 3.** Someone wants to buy an item you are selling in an online auction with a check or money order made out for more than your asking price.
 - 4.** Someone hires you to work from home and asks you to deposit checks into your bank account as part of your job.
