

Smarter Banking Starts with AI

Drive growth and manage risk with Abrigo's AI-powered platform. Built on explainable AI, deep industry expertise, and data from more than 2,400 financial institution customers, it reduces manual work, improves decision-making, and helps your team focus on what matters most - driving stronger performance.

Lending & Credit Risk

Book the right loans faster with one lending platform for commercial, small business, small-dollar commercial, consumer, agriculture, construction, and nonprofit borrowers.

- ✓ Support the life of loan with configurable workflows, digital applications, credit analysis, decisioning, and more.
- ✓ Automate repetitive lending tasks to reduce manual work, errors, and inconsistencies.
- ✓ Increase lending capacity with embedded, explainable AI, including document recognition, credit narratives, and intelligent lending agents.
- ✓ Give lenders more time to build relationships and make better credit decisions.
- ✓ Streamline portfolio management and use AI-powered loan review to identify emerging risks and reduce workload.
