CLIENT TESTIMONIAL

"The Farmers National Bank team recently completed a very thorough, layered core evaluation process with ICI Consulting which culminated in amazing results. We were extremely impressed with our ICI consultants, who negotiated very beneficial contract terms as well as long-term savings beyond our expectations.

Our consultants provided top-notch support and services every step of the way. Their strong banking industry knowledge, enhanced by the financial technology experience, led to an excellent project outcome. I highly recommend ICI Consulting to any financial institution in need of core evaluation and negotiation services!"

- Brian Jackson
SVP / Chief Information Officer
Farmers National Bank
