CLIENT TESTIMONIAL

"Working with ICI on our Core and Digital contracts made what would have been an enormous, complex, time-consuming project very manageable. We felt the 'lift' off our team as our ICI consultant worked with the vendors involved on our behalf. While being kept in the know the entire time, our team was able to focus on other tasks during this process.

From working with our ICI consultant on the RFP to digging into the details on products, pricing, contract terms and conditions, we felt completely supported and truly in the hands of an expert. Best of all, our project concluded with a great result – favorable contracts, and core and digital platforms that are right for us and our customers!"

- Kate Brogan

SVP / Operations & IT Director
Superior National Bank
