

## **Accounting Administrative Committee Mission Statement**

The mission of the Accounting Administrative Committee is to provide expertise on accounting and auditing issues and to develop ABA positions on issues relating to bank accounting/auditing issues to the ABA Government Relations Council (GRC). The Committee addresses issues initiated by rulemaking bodies including the Financial Accounting Standards Board, the Securities and Exchange Commission, the bank regulators, the American Institute of Certified Public Accountants, and Congress. The Committee holds three meetings lasting one-and-one-half days, and communicates throughout the rest of the year by mail and conference calls. Representatives from one or more of the rulemaking groups usually attend portions of the meetings. Members of the Committee may be asked to testify for ABA on accounting issues.
