

## **ABA Internal Audit Peer Group**

The Internal Audit Peer Group is designed to help ABA members stay abreast of issues facing bank internal auditors. The group facilitates the exchange of ideas on issues, problems and solutions for meeting bank needs and regulatory expectations. A benefit of joining is the ability to network with others in internal audit via the IAPG member directory. The IAPG also holds quarterly conference calls for IAPG members, and there is no requirement with regard to commitment of time. Upon the request of IAPG members, additional calls and/or targeted educational calls can also be held. There is no charge for participation.
